

- **Answer to Question 4**

SELECT EVENTNO, DATEAUTH, STATUS FROM EVENTREQUEST WHERE  
(STATUS='Approved' OR STATUS='Denied')

AND

DATEAUTH BETWEEN '1-JUL-2018' AND '31-JUL-2018';

The screenshot shows the Oracle SQL Developer interface. The main window displays a SQL worksheet with the following query:

```
SELECT EVENTNO, DATEAUTH, STATUS FROM EVENTREQUEST WHERE (STATUS='Approved' OR STATUS='Denied') AND DATEAUTH BETWEEN '1-JUL-2018' AND '31-JUL-2018';
```

Below the query, the 'Query Result' window shows the results of the query. It indicates that all rows were fetched in 0.018 seconds. The results are displayed in a table with the following columns: EVENTNO, DATEAUTH, and STATUS.

EVENTNO	DATEAUTH	STATUS
1 E102	31-JUL-18	Approved
2 E104	31-JUL-18	Approved
3 E106	31-JUL-18	Approved
4 E107	31-JUL-18	Denied

The bottom status bar shows the file path: C:\Users\Bikki\Downloads\DataWarehousingNotes\Course1\Module4\Assignment1\_solutions.sql, and the system clock shows 11:27 AM on 14-Feb-19.
