

## Modification Problem 1 - Oracle SQL Developer

INSERT INTO FACILITY VALUES ('F104', 'Swimming Pool');

The screenshot displays the Oracle SQL Developer environment. The main window shows a SQL script in the 'Worksheet' tab: `INSERT INTO FACILITY VALUES ('F104', 'Swimming Pool');`. Below the script, the 'Query Result' tab shows the output of the query, which is a table with two columns: FACNO and FACNAME. The table contains five rows of data, including the newly inserted record for F104.

FACNO	FACNAME
1 F100	Football stadium
2 F101	Basketball arena
3 F102	Baseball field
4 F103	Recreation room
5 F104	Swimming Pool

The status bar at the bottom indicates the file is saved at `C:\Users\Bikki\AppData\Roaming\SQL Developer\Module4_quiz1.sql`. The status bar also shows the current line and column (Line 1 Column 55) and the status of the window (Insert Modified Windows: CR/LF Editing). The system clock shows 6:25 PM on 14-Feb-19.
